WASHINGTON, D.C. - The U.S. Consumer Product Safety Commission, in cooperation with the firm named below, today announced a voluntary recall of the following consumer product. Consumers should stop using recalled products immediately unless otherwise instructed.

Name of Product: One-inch 140X-9 Temperature and Pressure Relief Valves

Units: About 900

Manufacturer: Watts Regulator Co., of North Andover, Mass.

Incidents/Injuries: None reported.

Description: This recall involves the one-inch 140X-9 Temperature and Pressure Relief valves, which are typically used in large water heaters for commercial buildings or possibly for large homes. The valves bear item codes 0259844 (75 psi/210°F); 0259924 (100 psi/210°F); 0259708 (150 psi/210°F); 0259925 (125 psi/210°F); and 0259930 (150 psi/210°F). Sold by: Authorized distributors nationwide from October 2006 through July 2009 for between \$250 and \$280. The valves were typically sold as replacement parts for large water heaters used in commercial locations or possibly large homes.
